Neural network design solution manual pdf free version

There is not a solution manual for this book , however a good tip is to google the problem you are interested in since a lot of Universities use this book for assignments at Neural Networks or related courses . There are many sites like Chegg Study where you can pay to get solutions but I wouldn't recommend it at all . Also, you can search on github about the code you need for your exercise . Some notes and exercises (Chapter 2 , 3 and 4) can be found here . In addition some Chapters 4 exercises solutions can be found here . Since I have studied and worked on many assignments on that book , I might share some solutions in the future if there is big interest from community . update : I created a solution manual .
